

# Pure clarity

Until now, in-ear monitors have been reserved for high profile musicians, rock stars and those with significant disposable income. With Westone's Universal Series™ you can experience the advantages of in-ear monitors at an affordable price. You've never heard it so good – feedback is eliminated, onstage noise levels are lowered and vocal fatigue is reduced. Universal Series in-ear monitors not only allow you to hear with clarity and crispness, but when used properly, will help protect your priceless hearing. Universal Series in-ear monitors are made possible by over four decades of experience manufacturing products for the human ear. The result – A universal fit in-ear musicians monitor of unequalled response, fit and reliability at a price that virtually anyone can afford.

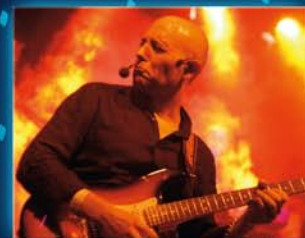

## UM1™ | Single Driver Universal IEM

Built to the same exacting standards as the UM2, the UM1 is a single balanced armature driver universal-fit musicians' monitor offering excellent sound at an entry level price. With comfortable Comply™ tips, the UM1 provides hours of fatigue free listening with up to 25 dB of ambient noise reduction. The UM1 is the perfect entry level earpiece for performing and personal listening. Equipped with a durable 50" stereo 'Y' cord and a 3.5mm stereo jack, the UM1 is also perfect for personal audio devices such as MP3s, CD players, and laptop computers. The UM1 is simply the best value single driver monitor on the market. Available in clear only.

## UM2™ | Dual Driver Universal IEM

Built to the highest professional standards, the dual balanced armature driver UM2 provides amazing low frequency response and rich, articulate mids and highs. Using the same technology as our custom ES2, the UM2 is the earpiece of choice for performers desiring high-end sound quality at an affordable price. The comfortable Comply™ foam tips allow for extended use without fatigue. Providing up to 25 dB of ambient noise reduction, the UM2 is the perfect choice for on-stage performing or for personal listening. The UM2 Universal Monitor is the most affordable dual driver musicians' monitor on the market. Available in clear and black.

## UM56™ | Custom Earpieces for UM series

While universal-fit eartips can provide a good fit for just about anyone, you can improve the fit of your monitors with a pair of canal style custom earpieces. This style is comparable in size to the tips provided with most universal-fit musicians' monitors, but ensure the comfort and seal that only a custom fit product can provide. Available in several colours.

Ear impressions are required for the UM56. Visit your local hearing healthcare professional or contact us to find an authorized dealer near you.
