

W Series 50

UNIVERSAL-FIT

- Incredible comfort for active lifestyles
- Five driver design
- Unrivaled sound signature tuned by artists

Tech Specs

Sensitivity	118dB SPL @ 1mW
Frequency Response	20 Hz - 20 kHz
Impedance	25 ohms @ 1 kHz
Passive Noise Attenuation	25dB
Driver	Five balanced armature drivers with three-way crossover
Cable	MFi / EPIC Replaceable
Cable Length	50" / 128 cm

Overview

The Westone W50 features a five driver system with an unrivaled sound signature, tuned by artists, with a powerful low frequency driver, dual mid and high frequency drivers to make the sound mix smooth and balanced across all frequencies.

IDEAL FOR: Personal audio and video devices

W Westone True-Fit Technology

50+ years experience with in-ear applications has yielded a low-profile, lightweight, universal earpiece which delivers maximum comfort and in-ear coupling for dynamic transfer of sound.

Balanced Armature

Westone's balanced armature drivers are significantly more compact and efficient than traditional dynamic drivers. By combining multiple balanced armature drivers with sophisticated crossover networks, Westone monitors provide enhanced sonic detail and frequency range that extends well beyond typical in-ear solutions.

Replaceable Cable

High-strength, ultra-low resistance tensile wire design with aramid fiber.

3-Button MFi Control System + Mic

Function control for Apple® products including volume +/-, tracking +/-, phone answer, and Siri activation.
